

KID'S CORNER

MAKE A PRETTY PONY NECKLACE

Make a special necklace out of simple objects you might have lying around the house. This pretty pony necklace is perfect for a friend, or simply to show off your equestrian style! Here's how:

EQUINE FUN FACTS
 Did you know? Arabians have fewer bones than most other breeds. They only have 17 ribs (while most other horses have 18).

- Items you will need:
- Horse Figurine
 - A Craft Flower
 - Decorative String or Ribbon
 - Glue Gun

- 1** Have an adult help you with a glue gun, as they can become very hot! Glue a small loop of string on the back of your horse. Finding the right balance point to creating this loop (which attaches to the neck chain) can be tricky – you want to ensure the horse does not tip forward when the necklace is done.
- 2** Cut your string so it's long enough to place around your neck. Zip it through the first small loop you created. Tie a knot at the top.
- 3** Glue your craft flower on the horse's withers. You're done!

CROSSWORD

1. One of the horse's natural gaits that is faster than the walk and trot but slower than the gallop.
2. What is the piece of tack attached to an English saddle, that is used to secure the saddle on a horse by being fastened around its belly?
3. At what point on the horse's body is height measured?
4. Who trims a horse's feet and takes care of its shoes?
5. What should every rider wear on their head when riding?
6. What is the art of riding and training a horse in a manner that develops obedience, flexibility, and balance?
