

## Rookie Riders Testimonials

### **Ian Millar**

“I am beyond thrilled about the Rookie Riders program. This is an excellent program that will help make the sport accessible to a new generation.”

### **Danielle Yaghdjian**

“Rookie Riders is a fun, interactive program that introduces children and communities to the equestrian sport. It motivates, builds confidence and engages children through every aspect of the program. As a Rookie Riders facilitator the best part is seeing the smile on the children’s faces as they progress through the skills and learn about the horse”

### **Ruth Allum**

“The Rookie Rider program provides a well rounded base of fundamental movement skills neatly paired with an introduction to the world of horses. As the Chair of the EC Eventing committee and certified High Performance Eventing coach, the benefit I have seen first hand in this program development of athletes across the country with a well defined curriculum, a broad base of equestrian education and an excellent opportunity to expand physical literacy. Well done Rookie Riders!”
